

The music boosters want to share with you a list from the music program directors. There are projects that have been on hold for a while and the directors need our help.

1. The room that holds costumes and props for the musicals and plays needs organizing. Can you help?

2. The music department library, i.e. sheet music needs to be organized. A director will be present who has a plan, she knows how the library will be organized, she just needs help because of the quantity of the sheet music. This is a no lifting job. Can you help?

3. The room where the choir rehearses could use a new coat of paint. This job will be done after school lets out this summer. Music boosters will help with obtaining the supplies. Can you move your arm up and down with a paint brush in it? If yes, we need you!

We are fortunate to have a thriving music program at winton woods. Let's keep the momentum going! You personally can make a huge contribution just by helping for an afternoon or for an hour. Help file some music, maybe help paint just one wall for example.

Please send your name and phone number to [Music Boosters Email Address](#) We will give you a call when we get specific projects scheduled. The costume room needs help first.

Many hands make light work. We bet that if you help with any of these projects, you're going to find you enjoyed it!
